- **Shockproof & Rainproof**
- **1 Year Limited Warranty**
- **Ideal for Handymen, Contractors, Construction, Campers, Workshops, Emergency Services, Mining, Outdoor/Indoor Events, Concerts, Parties etc**

DID YOU KNOW?

LED lighting technology is well suited for spotlights and floodlights. Their durable and efficient bulb provides intense light using less battery power. LED floodlights are far more shockproof than halogen lights. LED bulbs have a very long operating life so the bulb never needs replacing.

HIGH BRIGHT BEAM

Avoid direct eye exposure or serious eye injury could result.

To prevent damage to eyesight, never look directly into light when it is on.

Do not shine in any face.

This item is not a toy. Keep out of reach of children

SPECIFICATIONS:

- **2 x 5 Watt LED Globe 450 Lumens each (Part # ZA-442-5W)
or 2 x 10 Watt LED Globe 900 Lumens each (Part # ZA-442-10W)**
- **Colour Temperature 6500K**
- **Beam Angle 120 Degrees**
- **Globe Life span > 50,000hours**
- **Single Ceramic LED Array (COB)**
- **Input Voltage: 12v DC 1A(5W), 1.5A(10W)**
- **Operating Current / each light: 0.5A(5W), 0.75A(10W)**
- **Toughened Glass Cover**
- **Height Adjustable 80cm to 170cm**
- **Working Environment -20°C to 65° C**
- **Rating IP65**
- **Weight: 3.5kg**

Setup:

The Zartek ZA-442 floodlight is equipped with a rugged tripod stand. Flatten the 3 legs and position on a horizontal flat surface. Extend the pole to the required height and tighten all points. Ensure that the stand is stable. Attach the lights to each end of the top arm with the hand bolts provided. Swivel and tilt both lights to the intended direction and fasten hand bolts.

Operation:

This floodlight can be powered with the included vehicle adaptor either from a vehicle's 12V socket or separate car battery. A 5m detachable heavy-duty cable has twin plugs for each of the lights. The power socket is located beneath each light next to the ON/OFF switch. Gently lift the rubber socket protector and insert the plug into each light. Lead the cable from the light to a power source and ensure the wire is not damaged or broken. Press the ON/OFF switch to operate.

CAUTION!

This light uses significant amounts of power. If powered from a vehicle that is OFF and not running ensure that the light is not left on for long periods or a flat car battery may result. A standard, fully-charged car battery will power the light for about 30 hours and then go flat. It is therefore only recommended to use the light for a few hours on battery power alone and then recharging the battery.

- Small Car Battery 40AH: 40hrs (5W), 26hrs (10W)
- Medium Car Battery 60AH: 60hrs (5W), 40hrs (10W)
- Large Car Battery 80AH: 80hrs (5W), 53hrs (10W)

The dual LED Zartek ZA-442 portable floodlight has an Aluminium lightweight housing for the lights with powder coated steel tripod stand for firm positioning on flat surfaces. Beam direction can be adjusted individually per light by 360° horizontally and 90° vertically. Fix the floodlight head position by tightening the 3 hand screws.

- Beam Angle 120 Degrees per Light
- Wide Area Flood Beam Distance approx. 50 meters for 5 Watt &
80 meters for 10 Watt

This floodlight is ideal for caravan parks, events, repair work, construction, automotive, roadside assistance, outdoor, industrial and general use. LED globes are shockproof and never need replacing. The light casings and tripod stand are durable and lightweight and this portable floodlight is easy to setup and reposition wherever temporary light is required. Applications include handymen, contractors, campers, mining, workshops, parties, concerts etc.

WARNING!

- Do not power this floodlight with any other adaptors other than those supplied with the unit.
- Do not operate the floodlight in high temperature, hazardous or explosive environments.
- Do not subject the light to strong impacts.
- Do not disassemble or modify the floodlight as it contains protective devices which, if damaged, may cause the light to get very hot.

Maintenance & Storage:

If the unit gets dirty, gently clean the outer surface of the floodlights with a soft cloth moistened with a mild solution of water and detergent.

The tripod stand is foldable and the lights can be removed for compact storage. Ensure that the light housings are well protected during transit. The 5m cable is fully detachable for easy setup and convenient storage.

Store in a cool, dry place.

Warranty:

This product is warranted by Zartek against manufacturing defects in materials and workmanship under normal use for a 12 month period from date of purchase via our authorized appointed dealers.
